THANKS

And now, let me share with you some of the prayer updates that we shared and prayed over last night during Heritage Prays at 7PM. We'd love to have you join us, by the way.

- Kim Morgan had an MRI last evening. She made it through the procedure, and now is asking for prayers for results that the doctors will be able to use to determine the best treatment.
- Chase Brazle had an ultrasound yesterday for gastric issues. Prayers that he'll be able to get the care he needs.
- Dorothy Welch's brother Rick is hoping to go home from the hospital by this weekend.
- Maralee and Chris's friend, Rich, in Tennessee, is being released from the hospital today, after recovering from covid-19.
- Maralee's friend, Leona, is still in ICU at Beaumont (covid-19). She had to have a tracheotomy, but is showing signs of improvement.
- Michelle's co-worker, Melissa has recuperated from illness (not covid-19), but now is faced with having to care for her mother, who has dementia.
- Tim Brimer is scheduled for a spinal tap today. Doctors are still searching for the cause of his head aches, back issues, and now brain dysfunction.
- Lisa Bartlett is driving home from Georgia today with Lauren. She has an appointment tomorrow with an orthopedic surgeon to determine what needs to be done to her broken foot.
- Libby and baby Huxton are doing great.
- Phuong is feeling stronger each day, and is preparing to begin her chemo treatment. She and Ron are so relieved that they received good news about the pharmaceutical company assisting them with the cost of the medicine.
- Bobbi Heyden wants to thank everyone for flooding her with birthday cards and wishes.
- Ward asked for prayers for students who are under pressure to get their stay at home school work finished so they can receive credit.
- Continue to pray for caregivers as they continue to take care of others, and try to keep from exposing their own families to the virus.

REMEMBER TO PAUSE EVERY DAY AT 3:13, FOR 3 MINUTES TO PRAY FOR DETROIT!
